

The Howarth XL English Horn

The power of high density African Blackwood or the warm, rich palette of lower density cocobolo offer you distinct alternatives in timbre. Each English Horn has a flexible diversity in tone which gives you the freedom to perform with great elegance and character.

Clean, quick action from fine tolerance in manufacture gives you the security and reliability on which to build your professional career. Our instruments are found in the greatest orchestras worldwide, and are played by many of the finest solo artists of international repute.

Keywork can be finished in gold or silver plate, or made entirely from solid silver.

XL English Horn

- Body in African Blackwood (Grenadilla) or Cocobolo
- Hand-crafted full Gillet System key mechanism
- B vent key on bell
- Supplied with professional protective hard case and cleaners including luxury case cover

Our prestige instrument, hand-made to fulfil the demands of professional orchestral players and soloists all over the world.
